3rd November 2017

Dear Parents

Travel Survey 2017

Travel to school and the related parking and safety issues are a problem for most schools. When Wanborough School was built, a large proportion of the journeys to school were from the houses in the immediate vicinity of the school and were, therefore, on foot. However, in recent years the profile of families coming to the school has changed, meaning that many more are living beyond a feasible walking distance, with a consequent increase in car journeys and parking problems.

Ultimately, the more people trying to park around the school at arrival and leaving times, the greater the danger to children and inconvenience to local residents that results.

It is a number of years since we carried out a full survey of school travel, so to better understand the current situation and to inform future strategies, we would like to invite you to take part in our survey from now until **30th November**. The survey is anonymous and is an attempt to collect facts and opinions, not judge right or wrong.

You can go to the online version at www.surveymonkey.co.uk/r/WanboroughTravel2017 (linked from school website), or pick up a paper copy from the school office.

Whilst it is true that the school has no statutory power to apply and enforce traffic regulations, and no budget to make significant changes to parking arrangements, we are keen to work with families and local residents to arrive at the best arrangements that we can, for the benefit of both the school and the wider community.

We hope that all families will work with us in this aim and invite you to take part in the survey to start the process.

Yours Sincerely

Andrew Drury
